The guide is to describe how to set up Office 365 using Android device.

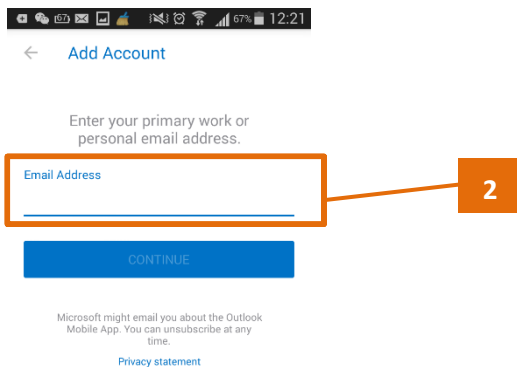

1. Get Started

Please note that Outlook for Android requires a device running Android 4.0 or later. Please download “Outlook” in Play Store if you don’t have one. And please be reminded that you cannot access tasks from the Outlook for Android app.

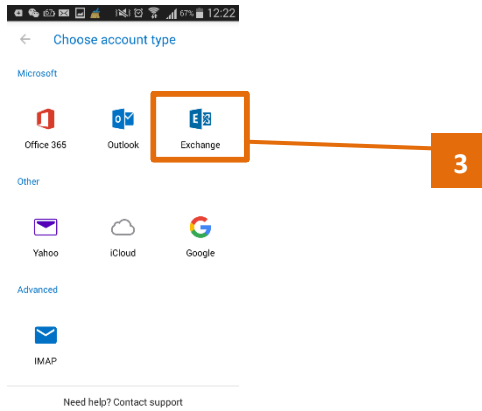

1. Go to the Outlook app and tap “Get Started”

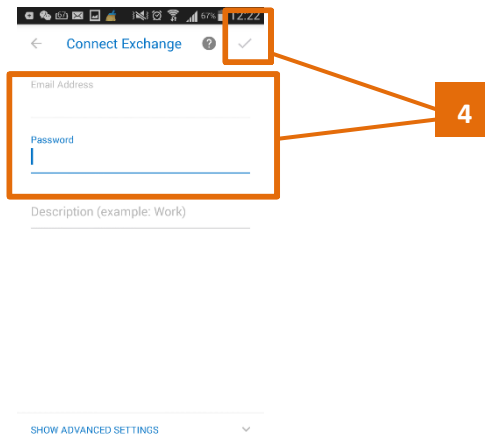

2. Enter email password and tap “Continue”.

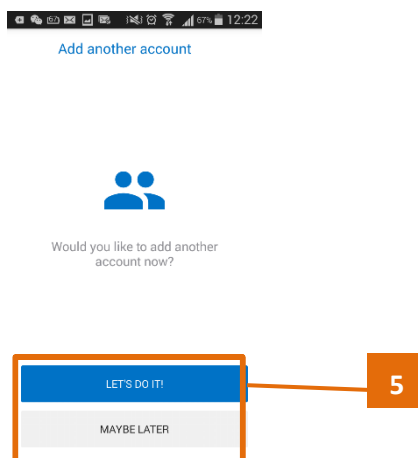

3. Choose “Exchange”.

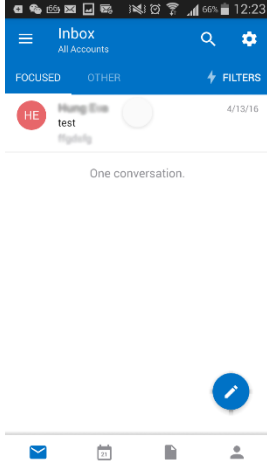

4. Enter Office365 email address and password then tap the tick.

5. You can tap “Let’s Do it” if you would like to add another account and follow the above steps as mentioned in 1-4, if not, just tap “Maybe Later”.

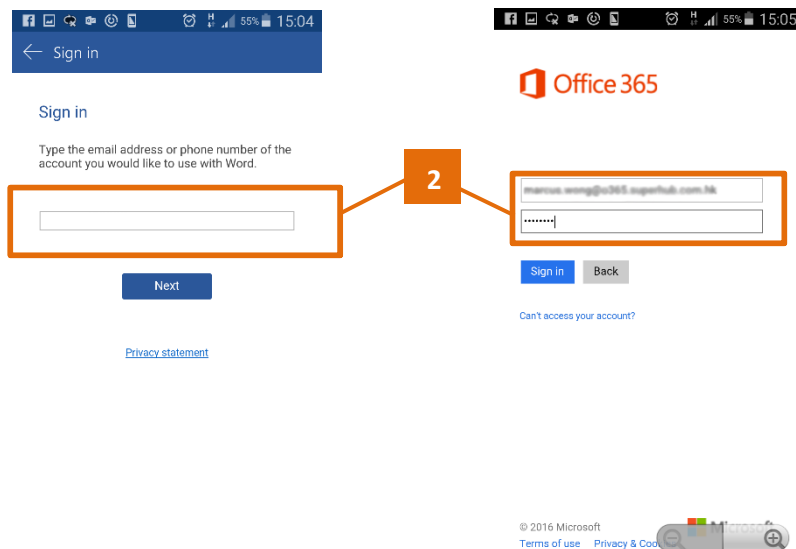

6. You can now experience the email service by using the Outlook app.

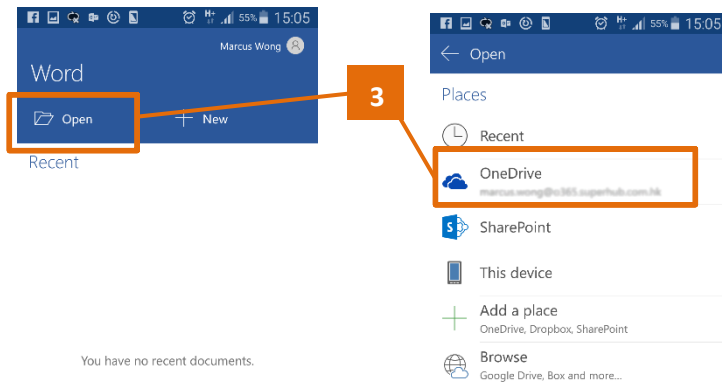

2. Set Up Office Apps

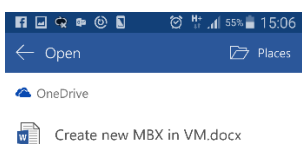

1. If you haven't installed any of the Microsoft Office apps on your Android mobile or tablet as yet, please download from Play Store.
2. Once you download it, tap any Microsoft Office app. On the Sign in page, enter your Office365 email address and password, then tap "Sign in".

3. You can enjoy the Office apps service after finished the above steps. If you would like to open current word files in Office 365, tap “Open” and choose “One Drive”.

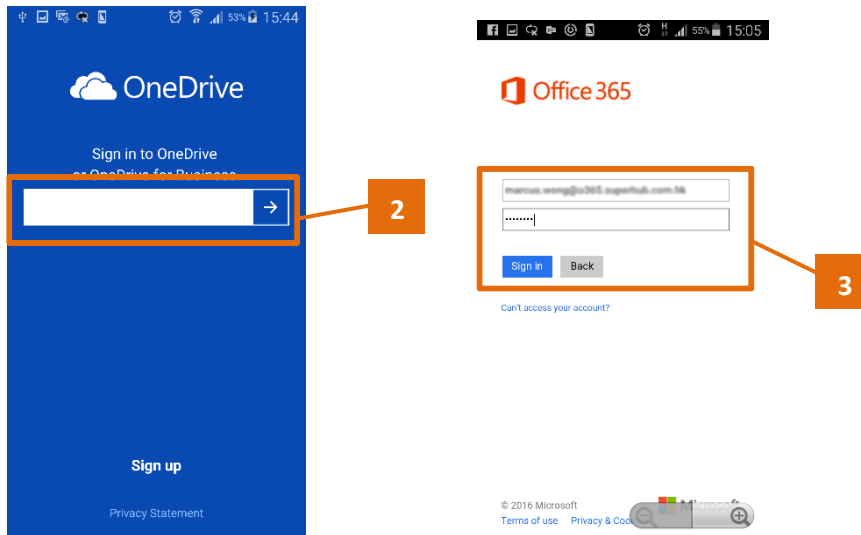

4. Your documents in Office 365 is already in the list. Tap any files you want.

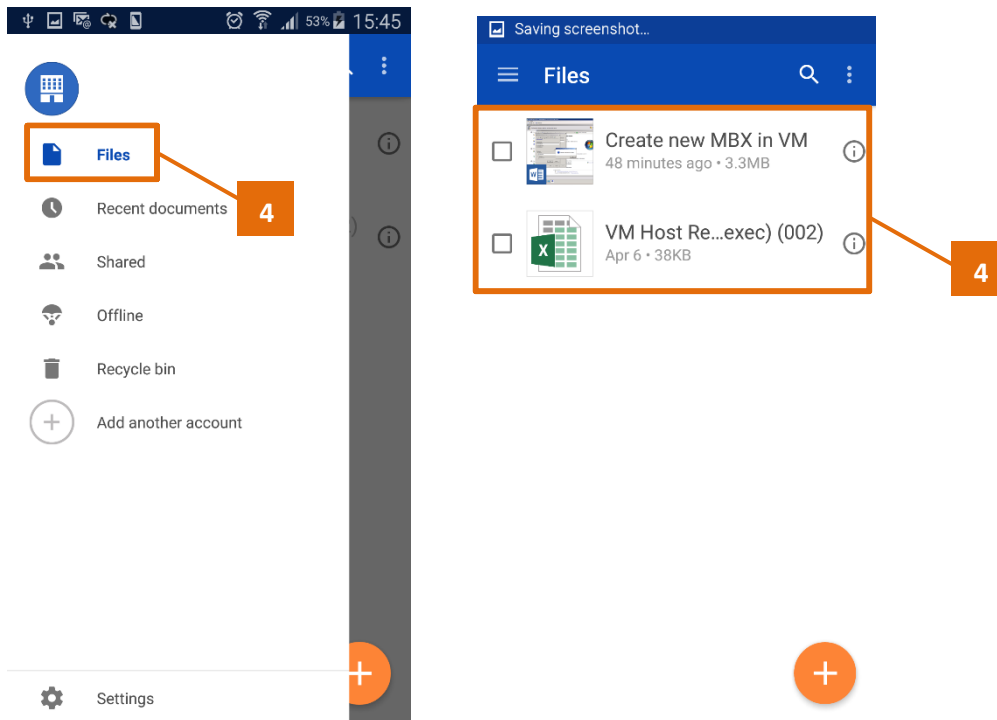

3. Set Up OneDrive

1. If you haven't installed OneDrive, download it from Play Store.
2. Enter your Office365 email address and tap the arrow next to the text box.
3. Enter your Office365 email address and password and tap "Sign In".

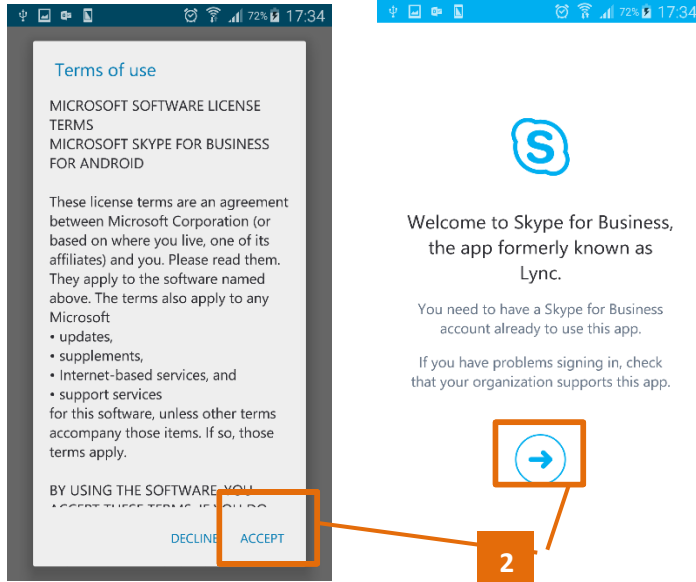

4. All One Drive documents will be in "Files".

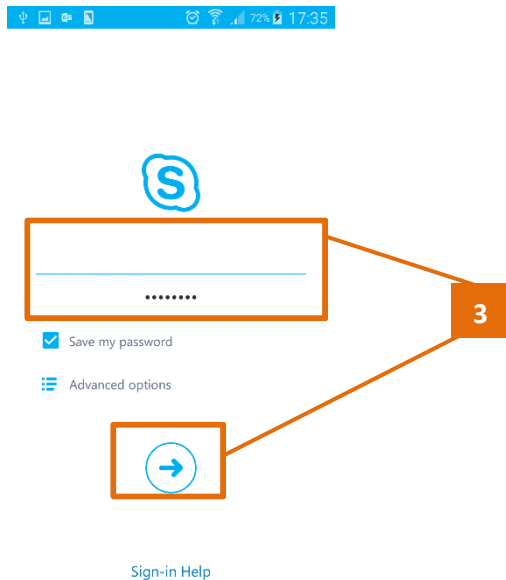

4. Set Up Skype for Business

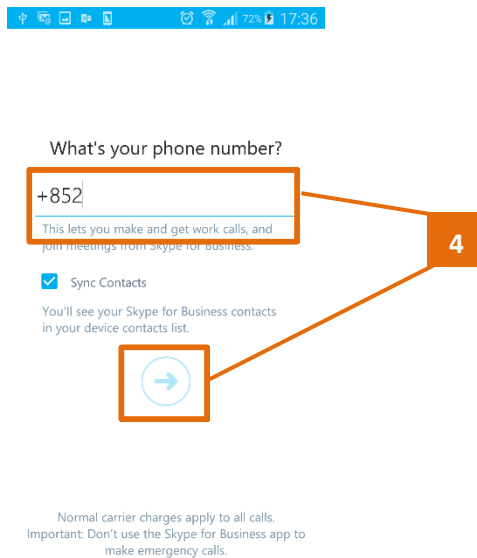

1. Please download “Skype for Business” on Play Store if you don’t have one.
2. Tap “Accept” after reading the Terms of Use and then tap “Next”.

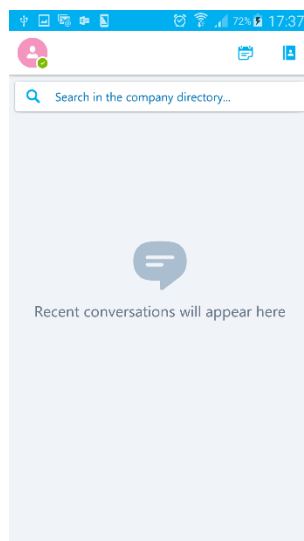

3. Enter your Office365 email address and password and tap “Sign In”.

4. Enter your mobile phone number and press the arrow.

5. Finished set up steps and you can now enjoy the experience to chat with others.

3. Get Help and Support
